EXPERIENCE

User Experience Designer II, Oracle Health (Patient)

Oct 2025 - Present

- Recruited for a high-visibility overhaul of the patient experience, launching from 0 to 100 in 4 months
- Designed a scalable account manager and secure messaging for medical proxies and parent/child relationships, balancing complex workflows with healthcare data privacy; with HF researchers, validated model with 13 users
- Redesigned the patient homepage, tasks, and recommended care engine, creating discovery paths to fuel user engagement and retention, increasing proactive patient exploration and education
- Collaborated with engineering to roadmap incremental code releases and led Design QA, creating rigorous specs and guidelines to support development effort, and ensuring 100% design parity and pixel-perfect execution for GA

User Experience Designer, Oracle Health (Clinical)

Apr 2024 - Oct 2025

- Led the design of AI-assisted clinical documentation tools for physicians, integrating generative AI, voice dictation, and ambient listening to reduce administrative burden and cognitive load
- Recruited by the nursing product team based on a reputation for high-impact collaboration; transformed click-heavy legacy intake and other charting forms into a streamlined, AI-forward experience
- Built trust with physician and nurse subject matter experts, presenting work to clinical feedback panels and earning the highest level of positive engagement across concurrent projects

Product Designer, Bit of Goods (Volunteer student organization)

Aug 2023 - Dec 2023

- Led product design and strategy of a responsive web app database for non-profit [Canine Assistants](#)
- Prototyped 3 features per sprint, managing handoff and QA communication with a team of 5 developers

User Experience Design Intern, Oracle (Supply Chain Management)

May 2023 - Aug 2023

- Designed a conversational interface to streamline procurement and requisitions in hospitals, leveraging generative AI, NLP, and LLMs to prevent unnecessary requests and improve description quality
- Resulting product concepts directly influenced 3 product teams' strategy for integrating NLP and LLMs

User Experience Design Intern, Norfolk Southern Corporation

Jan 2023 - Apr 2023

- Redesigned internal safety reporting software to better meet federal compliance standards, cutting average reporting time by 70% and raising task success rates by 150% in usability testing
- Contributed 15 high-fidelity interactive components to cross-application and cross-platform design system

User Researcher & Co-Founder, The Breakroom (SaaS Startup)

Jan 2023 - Apr 2023

- Co-founded a startup focused on remote team socialization; led end-to-end research and product strategy
- Selected for Georgia Tech's [Create-X Startup Launch](#) 2023 and awarded \$5,000 in seed funding

EDUCATION

Georgia Institute of Technology

Aug 2018 - Dec 2023

Bachelor of Science in Industrial Design, *summa cum laude*

3.8 GPA

SKILLS

Design: Design Thinking, Wireframing, Prototyping, Information Architecture, User Flows, Design Systems

Research: User Interviews, Journey Mapping, Personas, Usability Testing, Data Visualization, Competitive Analysis

Tools: Figma, Claude, Codex, Figma Make, React Native, HTML & CSS, Agile Development, Jira & Confluence
